ABOUT US

GMB Polytechnic, Rajula was established by Education Department, Government of Gujarat and Gujarat Maritime Board Education Trust - Gandhinagar in year 2016, which is non-profitable PPP mode education institute. The institution is approved by All India Council for Technical Education (AICTE), New Delhi and affiliated to Gujarat Technological University (GTU), Ahmedabad. The institute is committed to provide opportunities and all other facilities that will help the students to grow physically strong, mentally sound and intellectually sharp. The institute campus is spread over a landscape of 4 acers having eco-friendly environment located away from the hustle and bustle of crowded city. The institute has state of art academic and administrative infrastructure with modern equipments. Appointed staff members are highly qualified and experienced.

DIPLOMA COURSES OFFERED

Civil Engineering

Computer Engineering

Electrical Engineering

Mechanical Engineering

VISION

" To become centre of excellence in technical education and recognize for research, innovation and the societal relevance with an impact of its pursuits "

MISSION

- To support academic excellence in engineering and technology amongst students under the guidance and supervision of qualified staff members.
- To develop responsible citizenship through awareness and acceptance of ethical values.
- To provide technical education among the students living in bottom of social pyramid in coastal region of nation.
- To fulfill the requirements of society at large, by supplying students of highly motivated and resourceful qualities.
- To fulfill the dream of skilled India by producing highly skilled personnel in various emerging fields of engineering.

PRINCIPAL'S MESSAGE:

"Education is a shared commitment between dedicated teachers, motivated students and enthusiastic parents with high expectations"

Today, the role of institute is not only to pursue academic excellence but also to motivate and empower its students to be lifelong learners, critical thinkers, and productive members of an ever-changing global society. This can only be possible in a holistic, student-centric environment. Students need to be provided with a platform to think, express, and exhibit their skills. It is necessary to empower them to negotiate several issues that confront them, with the teacher being a facilitator I tend to promote the Right to Education for all coastal people of Western Gujarat especially Amreli district. I support each professional in this institute who makes maximum efforts to the uplift of level of education through his or her extended knowledge and bring achievement to this institute. Presently, my efforts are to bring ZERO backlogs in the university exams, 100% attendance in the class and laboratories and 100% placement.

I am confident enough that the GMB Polytechnic, Rajula will make them selves stronger day by day, adding a new leaf to the grandeur of the institute in all the aspects.

Prof. (Dr.) Kalpesh H. Wandra
